Jira/SourceTree	MS Office

Experiences

Web Dev. and Graphic Design — 2024-Present
Freelance/Project-based
Developed creative and technical solutions for clients needing graphics, branding, and functional web designs.

Fullstack Intern — Jun 2024-Nov 2024
SERVO IT Solutions
Developed business platform mobile application using Flutter/JavaScript (API), performed UI/UX and created reusable components using Figma, and improved a website using WordPress.

CEO & Social Media Manager — 2021-2023
Google Developers Student Clubs HAU
Served as university lead for GDSC in 2023, with role of providing various club activities such as learning sessions, industry participation, programming challenges, and community outreach.

Projects

Asian Market Omaha & China Buffet Site — Ongoing
Web design, Rebranding, Advertising Templates
Two websites and brands from a client in Omaha, Nebraska USA owning a food and grocery business selling Asian goods. The website allows users to browse the menu and shelves of the shops.

InFound: Lost and Found Web Application — 2024
Web application, API, Google Firebase and Maps
A web application made for research/capstone using Flutter and Google services. The incentivized application serves as a platform for users to post lost and found items, integrating location based computing and filtering, detailed search, and social interaction.

The Library: Library Management System — 2024
Mobile application, API, Google Firebase and Maps
A mobile application made for a school project using Flutter and Firebase. The Library provides a platform for browsing available books, showing its log history, and an automated check out and logging system using QR codes and scanners using user accounts.

Grapika: Automated Commissioning — 2023
Website (HTML/JS), Google Apps Script, Atlassian Jira
Developed as a website for automated commissioning, Grapika provides a platform that automates the process of commissioning artworks: getting information, providing price estimates, and sending email notifications such as receipts and updates.
